owns and controls machinery, patents and processes for manufacturing all grades of paper, feed and by-products from the wasted cornstalks. This waste in the corn belt of the U. S. amounted to over \$8,000,000 tons in 1900. This enterprise will create vastiy more wealth than the utilization of the once wasted conton seed, it will add if per ton to all this waste cornfield tonnary, giving millions to the farmer, furnishing new avenues for labor and new freights for railroads, and a substantial income to investors in this security. Every pound of paper pulp is made from vegetable fluer. The timber for pulp in the U. S. is nearly exhausted. Paper manufacturers are now forced into Canada for their supply. Every namer mill in this country will use this pulp. Every city in this and foreign countries will use and deal in this feed. Manufacturers of celluloid, leather and rubber substitutes, insulating material, linoleum and pipe covering will be users of this cellulose.
